Re: Donation of End of Life Cycle Firefighter Equipment

GlobalFire, a registered Canadian charity, operates programs designed to strengthen the delivery of emergency services in the Third World. Its programs are able to be operated through the provision of equipment, medicine, and supplies and the delivery of training packages, all at no cost to the recipients. I respectfully request the Municipal Council's approval for all "end of life cycle" firefighter equipment (bunker and ancillary) to be donated to GlobalFire, on an ongoing basis.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "V. Ridley".

Virginia Ridley  
Councillor, Ward 10
