Chair and Members of
Planning and Environment Committee

Re: Environmental Impact Statements

Environmental Impact Statements (EIS) may set out mitigation and/or protective measures that are to be undertaken by the landowner as part of undertaking a development. In such circumstances, there should be a mechanism in place to ensure that compliance to the conditions set out in the EIS are met.

In order to ensure that compliance is achieved in the above-noted circumstances, I respectfully request support of the following recommendation:

“That the Civic Administration BE DIRECTED to review and report back to a future meeting of the Planning and Environment Committee on how Development Agreements could be modified to include a mechanism for the Civic Administration to undertake compliance investigations to ensure that conditions set out in Environmental Impact Statements are and will be met.”

Respectfully submitted,

Tanya Park
Councillor Ward 13
