Re: Methadone Clinics and Methadone Pharmacies – Licensing By-Law

To the Members of Public Safety Committee,

The Woodfield Community Association is in support of the Methadone Clinic and Methadone Pharmacies Licensing By-Law. We congratulate the city on the hard work done to date in studying Methadone issues and developing a comprehensive planning and licensing approach.

The WCA supports the requirement for a security plan, adherence to Crime Prevention Through Environmental Design (CPTED) best practices, and the provision for a meeting held at least annually with representation from the neighbouring community to discuss issues of common concern. In particular, we are happy to see that this at least annual meeting will provide a venue in which neighbourhoods can seek amendments to the security plan.

Yours sincerely,

*Wendy Dickinson

About us:

If you live in the area of London, Ontario bounded by Richmond St, Adelaide St, Queens Ave, and the CPR tracks (that cross Pall Mall), then you live in Woodfield!

The Woodfield Community Association works to maintain and improve the high quality of core area residential living to be found in Woodfield. Our mandate includes maintaining the residential character of the community, preserving heritage resources, protecting and expanding our heritage tree canopy, encouraging neighbours to shop and play where we live, and promoting social events that bring the community together.

To join the Woodfield Community Association (\$5 for 4 years, or \$50 for a lifetime membership and free copy of our book on the history of Woodfield) please drop me a line, or give me a call. We would love to meet you.
