RE: OLD EAST VILLAGE COMMERCIAL CORRIDOR URBAN DESIGN MANUAL

The historic Old East Village (OEV) commercial corridor located on Dundas Street between Adelaide Street and Charlotte Street has seen significant revitalization over the past decade. Due to the heightened interest in renovation, restoration and new development along the corridor the OEV BIA requested that the City prepare a new design manual in order to provide design guidance.

On December 14, 2015, a draft of the Old East Village Commercial Corridor Urban Design Manual was received by the Planning & Environment Committee. Council asked Planning Staff to circulate the draft design manual to the following organizations and/or groups: the Old East Village BIA, the Urban League, the London Development Institute, the London Home Builders Association, the London Area Planning Consultants, LACH, the Urban Design Peer Review Panel, relevant City of London departments and divisions, and other interested parties.

By this letter you have been advised that a copy of the guidelines for your review and comments can be obtained through the City of London Urban Design Reference Documents Website (<http://www.london.ca/business/Planning-Development/urban-design/Pages/Urban-Design-Ref-Docs.aspx>). Alternatively contact Planning Services to receive a hard copy of the document. Please call, mail or email your comments, by way of the contact information below, by February 26h, 2016. Your opinion is important. Comments will be reviewed and summarized in a report that will be submitted to the Planning & Environment Committee of City Council for consideration. At that time, you will receive another notice inviting you to attend this meeting.

Yours truly,

Jerzy Smolarek, MAUD
Urban Designer
