RE: Monthly Report for January 2016

Attached are the Building Division's monthly report for January 2016 and copies of the Summary of the Inspectors' Workload reports.

Permit Issuance

By the end of January, 218 permits had been issued with a construction value of approximately \$87.3 million dollars, representing 79 new dwelling units. Compared to last year, this represents a 25.8% decrease in the number of permits, a 25.8% increase in the construction value and a 67% decrease in the number of dwelling units.

To the end of January, the number of single and semi-detached dwellings issued were 44, which was a 21.4% decrease over last year.

At the end of January, there were 465 applications in process, representing approximately \$424 million dollars in construction value and an additional 1,233 dwelling units, compared with 511 applications having a construction value of \$532 million dollars and an additional 1,357 dwelling units for the same period last year.

The rate of incoming applications for the month of January averaged out to 11.7 applications a day for a total of 234 in 20 working days. There were 32 permit applications to build 32 new single detached dwellings, 13 townhouse applications to build 64 units, of which 5 were cluster single dwelling units.

There were 218 permits issued in January totalling \$87.3 million including 79 new dwelling units.

Monthly Report for January 2016 Page -2-

Inspections

Although multiple inspections may be booked and completed for a project on the same day (ie. structural framing and HVAC rough-in), only one inspection is counted in this report. This provides a more accurate depiction of the inspectors' workload.

Building Inspectors received 1,076 inspection calls and conducted 1,485 building permit related inspections with an additional 22 inspections completed relating to complaints, licenses, orders and miscellaneous inspections. This is a total of 1,507 inspections or an average of 137 inspections made per inspector this month based on 11 inspectors, which averages out to 7.5 inspections per day per inspector. (Note: 220 person working days – 19 vac/sick day/training = 201) There are a total of 8,578 active building permits or an average of 780 permits per inspector. The provincially mandated requirement to inspect within 48 hours of receipt of an inspection request was achieved 100% of the time.

Plumbing Inspectors received 578 inspection calls and conducted a total of 849 permit related inspections, there were 5 inspections performed that related to the Backflow Prevention Program. Inspections relating to complaints, orders and miscellaneous calls totalled a further 5 inspections. During the month, a total of 859 inspections were conducted with an average of 172 per inspector, which averages out to 9.2 inspections per day per inspector. (Note: 100 person working days - 7 vac/sick day/training = 93). Active building permits involving plumbing totalled 2,370 or 474 on average per inspector. The provincially mandated requirement to inspect within 48 hours of receipt of an inspection request was achieved 99.8% of the time.
