

Committee: Accessibility Advisory Committee OR London Housing Committee, OR Audit Committee, OR London Public Library Board

Organization/Sector represented: n/a

Name: **David Collens**

Address:

1330 Jalna Blvd

Unit 254

Occupation: **Internal Auditor**

Work experience: **Almost 7 years as an internal auditor in progressive roles from a Junior Auditor to a Senior Manager. Also sit on the following boards as a Director: 1. Anago - Director 2. Condominium Corporation #48 - Director (Treasurer)**

Education: **Bachelor of Commerce (Hon) from McMaster University Certified Internal Auditor Certified Government Auditing Professional Certified Fraud Examiner Certified Anti-Money Laundering Specialist Certified in Risk Management Assurance Certified Associate in Project Management Leadership Certificate (in progress) Certified in Management (in progress)**

Skills: **Expertise in governance, risk, and control which is an asset to any advisory committee or Board. Also have a breadth of general business acumen accumulated while conducting operational audits in the internal auditor capacity at OLG. I'd be able to expand on some of these areas in an interview as well as provide you with my resume and CV.**

Interest reason: **The reasons I'm interested in serving the City of London are twofold: 1. To contribute toward improving the city of London through participation on an advisory committee or board 2. To contribute toward my professional development**

Contributions: **I believe my experience as an auditor has provided me with a wealth of business knowledge. This knowledge gives me the ability to offer a different perspective on matters. I'm able to systematically assess a situation both from multiple stakeholder perspectives, including the public as OLG operates as a crown corporation for the province and therefore I'm also considering potential impacts on the general public.**

Past contributions: **Currently serving as a Director for a Condominium Board and Anago's Board of Directors. Joined both Boards in 2014 so although relatively recent both opportunities have started to broaden by skill set. On the condo board my focus has been on ensuring appropriate stewardship of financial resources, including sufficient funding of reserve and operational accounts. On the Anago Board, I've volunteered to serve on a Governance sub-committee and a Finance/Audit sub-committee which will help develop my capabilities that can then be applied to other boards/committees.**

Interpersonal: **I'm constantly exchanging ideas and opinions with management and peers in my audit role at OLG. Both board positions also provide me with the opportunity to engage in the exchange of opinions with fellow board members, management for the non-profit organization, and tenants with respect to the Condo Board.**

Interview interest: **Yes**
