

Work Plan Updates

The work plan will be included in our agenda every second month beginning in April, and we should review it and update as needed at that time. I hope the following will give some structure to the first attempt to do this.

1. Updates from each of the leads

As a quick reference, here are the leads listed in the current work plan:

- Alyssa Penney - London Road Safety Strategy
- Jon Kostyniuk - Transportation Master Plan
- Jon Kostyniuk - Active Transportation / Transportation Demand Management
- Amanda Stratton - Broader public engagement
- Amanda Stratton - Educational presentations
- Amanda Stratton - Following CWC
- Steven Greenley - Following LTC
- Lindsee Perkins / Gordon Debbert - Rapid Transit
- Henk Ketelaars - Electric scooters / assisting devices
- Sarah Brooks - Dundas Place
- Henk Ketelaars & Amir Farahi - Roadwork policies
- Julian Pecchia & Amir Farahi - Emerging technologies
- Julian Pecchia & Amir Farahi - Automated vehicles

Questions you may want to answer in an update:

- What is the current status of the project / initiative / program?
- Is there an upcoming opportunity for the TAC to provide input?
- Have any issues come up that you think the TAC should address or be aware of?
- Are there any problems you could use some help solving?
- Has this been discussed by a working group or subcommittee?
- Should a working group or subcommittee meet on the topic?
- Do you want to continue as the lead?
- How should we adjust the work plan?

If your update is very complex or lengthy, please consider emailing it to the committee ahead of time so that we can review it and keep our discussion in the meeting efficient.

2. General Questions to Consider:

- Should anything be added to the work plan? (Each item will need a lead)
- Should anything be removed from the work plan?
- Are there any existing work plan items that you'd like to work more actively on?
