

**Proposed Changes to the Animal Welfare Advisory Committee's
Terms of Reference**

April 2016

- a) the three (3) vacant categories as listed below, BE AMENDED as follows:
 - i. Veterinarian or Veterinarian Technician – be eliminated and a member-at-large position be added in its place; and
 - ii. London Veterinary Association – be eliminated and a member-at-large position be added in its place; and
 - iii. London Humane Society – be eliminated and a member-at-large position be added in its place.

- b) An additional four (4) members-at-large positions, with related experience, BE ADDED for an increase to the advisory committee's voting members-at-large composition;

it being noted that several attempts to recruit members under the existing definitions have been unsuccessful and these positions have consistently been vacant throughout the entire history of the AWAC;

it being further noted that the additional four extra members-at-large will provide much needed support for the AWAC.
