

Committee: **Greater London International Airport Authority**

Organization/Sector represented: **Healthcare/Hospitals**

Name: **Michelle Campbell**

Address:

**19 Harrison Crescent
London, ON
N5Y 2V3**

Occupation: **President & CEO, St. Joseph's Health Care Foundation and Vice President, Fund Development for St. Joseph's Health Care London**

Work experience: **St. Joseph's Health Care Foundation is one of the largest foundations of its kind in southwestern Ontario, with assets under management in excess of \$70M. As CEO of the Foundation and Vice President of Fund Development for St. Joseph's Health Care London, I guide a team of professional staff, clinical and research professionals, and community and corporate leaders to build transformational investment in healthcare, academics and research. My professional work in local healthcare spans 25 years, requiring me to have a broad knowledge of the community and to engage with a variety of community stakeholders locally and even nationally. My work experience has enabled me to develop strong skills in communication, financial management, business planning, policy development, and marketing. My work also demands a high level of community engagement and collaboration with other partners.**

Education: **I hold a Bachelors of Arts (Honours) in History and Political Sciences, and I am currently a candidate in the Masters Program of the Faculty of Public Policy & Administration (July 2016) at Carleton University. In my profession, I am a Fellow of the Association of Health Care Philanthropy (FAHP), the highest credential possible in the profession, and an Honourary Lifetime Member of the Fundraising Institute of Australia (HMFIA).**

Skills: **I believe my professional work has given me a knowledge of the community that is vital to have in discussions dealing with as important a community resource as the Airport Authority. My work and volunteer experience has also given me extensive knowledge of Board governance and how Boards should work strategically with professional staff.**

Interest reason: **I believe that transportation is a critical economic driver for our community, and key to our future growth as a city. The city cannot reach its full potential without an integral resource like the London International Airport. I believe working for the benefit of the airport authority as a member of the Board of Directors would really be a contribution to the future of the city as a whole.**

Contributions: **As part of my contribution to the Airport Authority, I would bring my professional experience in governance. Having worked for, and on various local and national Board of Directors, I understand the importance of good governance. I would bring a keen interest in the role of the Airport Authority, and how it can best be supported to help drive our economic growth. I see the need for economic growth at the local level in my professional work, and want to do all I can to support it.**

Past contributions: **Nationally, I currently serve on the Board of Directors for the Governor General's Canadian Leadership Conference - a unique study experience that builds future leadership for Canada. Locally, I have served as Chair of the Board of Governors for the Western Fair District, and as Vice Chair of the Board of Directors for the Covent Garden Market.**

Interpersonal: **I have served on a number of different Boards in organizations experiencing change, including my own. That experience has given me the opportunity to work at tables with differing viewpoints, skill sets and even personalities from across different sectors. I believe that differing points of view can create rich dialogue and helps Boards get to a better outcome as a result.**

Interview interest: **Yes**
