Re: **Application for Appointment to the Greater London Airport Authority
Board of Directors**

I am writing to apply for appointment to the Greater London Airport Authority Board of Directors. I am a Registered Professional Engineer and am actively involved with the London Home Builders' Association (LHBA), Professional Engineers Ontario, and the Canadian Society for Civil Engineers.

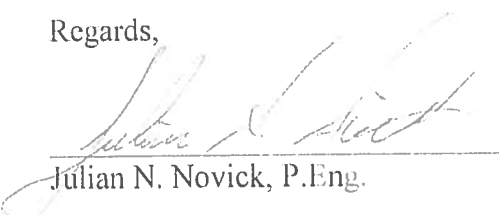

In addition to professional engagement, community work is a key focus for me. This includes serving as a member of the LHBA Careers Committee, as well as ongoing involvement with the Forest City Road Races (since 2006) where I currently sit on the organizing committee.

My formal specialization within Civil Engineering is transportation, which has included work focused on land development, infrastructure rehabilitation, and roadways.

As with aviation, both Engineering and land development are highly-regulated environments. Further to the technical expertise that an Engineering background inherently provides, my experience managing staff within regulated environments would be a great benefit to the GLIAA Board.

I would welcome the opportunity to attend an interview to discuss further. A copy of my resume is enclosed along with the City's application form. Please contact me if you have any questions.

Regards,

Julian N. Novick, P.Eng.
