SCHEDULE “A”

to Shareholder Declaration of Corporation

Corporate Combination and Disposition Guidelines

The Shareholder has acknowledged that the OEB policies and approvals are encouraging a reduction in the number of electricity utilities in Ontario through mergers, acquisition or sale. It is inevitable that the Corporation will have to combine with another utility based on the current policy and regulatory environment.

The Shareholder is mindful of the significance of these matters and the amount of work and effort that is necessary to meet the requirements defined by these guidelines. In order to encourage the Board and Management of the Corporation to seek out appropriate opportunities and to ensure a full and proper consideration of such proposals by all parties including the Shareholder, as sole shareholder, any opportunities submitted in accordance with these guidelines will be presented to Council

The following guidelines should be considered in the evaluation of any corporate combination such as a proposal for merger, sale or acquisition:

- 1) In the case of a merger:
 - (a) The newly combined entity should provide an opportunity for increased investment value to the Shareholder and/or lower electricity costs for Londoners;
 - (b) The newly combined entity should have a strong local presence and preferably be headquartered or have a regional office in London;
 - (c) The Shareholder should not be unduly constrained from disposing of its investment in the new entity, in a reasonable timeframe and manner;
 - (d) The newly combined entity should have a governance structure that is commensurate with the Shareholder’s investment in the new entity;
 - (e) The proposed combination presents the best strategic objective to the Shareholder given the existing and expected future policy and regulatory environment in Ontario over the next ten to fifteen years.
- 2) In the case of an acquisition:
 - (a) Any proposed acquisition will not require additional financing from the Shareholder;
 - (b) The proposed acquisition presents the best strategic objective to the Shareholder given the existing and expected future policy and regulatory environment in Ontario over the next ten to fifteen years.

3) In the case of any contemplated corporate disposition, including a transaction that results in the dilution of the Shareholder's wholly-owned investment in the Corporation, or disposes or leases substantially all of the Corporation's assets other than in the normal course of business:

- (a) The disposition should demonstrate that the new entity would lead to lower electricity costs to Londoners than otherwise would exist, without degradation of existing capital infrastructure or service levels;
- (b) It should be demonstrated that the return on investment of reinvested disposition proceeds is greater than the return expected to be provided under the current investment in the Corporation, or than contemplated under other proposed business combinations or alternatives;
- (c) After disposition, the new entity would maintain a strong regional presence in London and ideally London would serve as a regional centre for the new entity;
- (d) The sale should not be subject to any transfer tax by the Ontario Government and;
- (e) The disposition presents the best strategic objective to the Shareholder given the existing and expected future policy and regulation environment in Ontario over the next ten to fifteen years.
