Subject: RE: ACE Agenda - May 4, 2016

Oh Betty, this month has been hectic, I am so sorry! I forgot to do something in writing about how I am moving out of town. Is there any way to verbally mention it at the end of Discussion Items, or Additional Business in the May meeting. I would hate to see an addendum made up just for this specifically – if not verbally, can it be thrown on the back of pg 15. if they are not printed yet?!

I have taken great pleasure in the years sitting on ACE (& the CAC) and greatly appreciate the foundation it has given me for my future goals. It is wonderful getting a glimpse of the citizens which make up this town I have spent 10 years in; a glimpse of how community really shapes a city. Although I was limited in what I could offer, I am inspired by all the knowledge and vision that can be found in all of you and I wish you the best in getting this city recognized for its sustainability achievements! I will be cheering you on from York Region.

Thanks everyone,
Becki Schulz
