Dear Councillor Armstrong:

I am writing in support of your proposal to place garbage cans and needle bins at locations along the Thames River, including Richard B. Harrison Park and the Wellington Street Bridge.

Having participated in my first Thames River Clean Up less than two weeks ago, I appreciate the importance of having these items in place. They will go a long way toward keeping the parks clean and protecting children and pets from coming in contact with used needles.

Thank you for your leadership in this matter.

Yours truly,

Angela Lukach
