Interest reason: **The City of London has a diversity statement but I see very little action in making the organization a place where everyone has a fair chance of getting hired and promoted. I think this Committee could be a bigger agent of change for the City in making the Corporation a better place for all of its citizens.**

Contributions: **I can provide resources, critical thinking skills, communication/ representation.**

Past contributions: **I was on the LRRAC committee many years ago. We had great ideas about providing a diversity newsletter and education to politicians and staff but our efforts were stalled.**

Interpersonal: **I have been on a few boards, Childreach and Cross Cultural Learner Centre. I am also a corporate trainer. Participants will often disagree but it is important to understand where they are coming from because their points may also be valid. Having done a lot of work with diverse people, I am quite aware of the issues that language barriers and differences in abilities can play a part in interactions.**
