Old south is known for older homes, mature trees and a friendly neighbourhood. Unfortunately it's not like this on langarth street anymore. Coming from the uk I've experienced lots of history...why on earth would you want to allow another home designated as a heritage home be destroyed? It seems to me that the developers are winning and not taking into consideration the neighbours.. I oppose this as we need to hold onto any piece of history we've got.

The whole neighbourhood is affected by this.. It's very clear that this house is to be demolished so they can put another monstrosity up or maybe even two. I know,as I now back onto a huge monstrosity. I purchased my home 22yrs ago but never expected what I have now.... It's seems these new houses seem to barricade themselves from the front,but at the back have more windows than a green house. I now have no privacy whatsoever...I'm not happy at all. In fact I had no notification regarding the old house to be demolished. In fact it's getting to the point to movewhich I know wouldn't be the first.. This doesn't improve the neighbourhood as these modular homes have no architectural design... And mostly are destroying a beautiful neighbourhood. The needs should be for the people who live in old south, not the developers!

Thank you

Julie Jennings
