Subject: File Number Z-8625 - Submission

Greetings Mr. Parker,

Please consider this to be my submission to the July 18 meeting to discuss this Proposal.

Having lived within the 'Downtown Business Improvement Area' for more than five years, I enjoy a variety of the events that happen here.

Our City has taken great strides to make this area an area of choice to enjoy many aspects of the variety of entertainment, sporting, dining and cultural options available. London has also been successful in encouraging residential development growth in this Area.

However, this Proposal would result in far too much noise pollution for we, the many residents.

I am opposed to any removal of the application of the regulations contained in Section 4.18.5 of Zoning By-law Z-1 for the Downtown Business Improvement Area.

I wish to be notified of the adoption or refusal of the request to amend the Zoning By-law,

Respectfully Yours,

David
