

## PUBLIC PARTICIPATION MEETING COMMENTS

### 12. Bannister Municipal Drain Improvements

- M. Wells, representing WBC Holdings and Cobrell Holdings – stating that at this point in time he doesn't have any comments but would like an opportunity to question why some of the costs are as high as they are; stating that he understands that he will have an opportunity to do that later; questioning if that is correct; stating that the only concern he has is that the work that is proposed will not have any direct benefit for him at all and yet the costs are significant to him; advising that if he can resolve that with someone later he would be willing to do that.
