This includes identifying issues, concerns, and possible solutions. Help us shape the future of London culture. We want your feedback!!!

WHY MUSIC MAKES US FEEL GOOD!

People of all cultures and backgrounds love their music. This is a little surprising considering that music has no intrinsic value - unlike food and sex - but nevertheless triggers profoundly rewarding experiences. Nice little infograph included!!!

THE SCIENCE BEHIND

Why Music Makes Us Feel So Good

DOPAMINE HIT

We enjoy music the same way we enjoy food or sex. We might not need music to survive, but it gives us a rewarding rush of pleasure.

Music sends dopamine flooding through our brains. Dopamine is the chemical in the brain associated with pleasure, motivation and reward.

We can crave music the same way we crave tangible rewards, and when we fall in love, you guessed it! A rush of pleasure heads our way.

MUSIC IS A DRUG

Listening to music has the same effects as taking a drug.

↑ BRAIN ACTIVITY IN REASLES

↑ HEART RATE

SAD or HAPPY?

Sad music doesn't just make us feel sad, but it can make us feel joy or hope too. The way our brains perceive sad music depends on our prior experiences. A blend of contradictory emotions are produced when we listen to sad music which are ultimately pleasant to experience.

Music and YOUR PERSONALITY

Your favourite genre can be a clear giveaway of your personality

By signing up for this newsletter you are privy to information before the general public. Encourage your friends and family to register for this news letter. Now let's start with the JUNO Awards

This past weekend Calgary AB capitalized the country as they highlighted the Canadian Music Industry with JUNO Week and the 45th annual JUNO Awards. Although the JUNO's were on the other side of the country London, Ontario sure had a presence. Fanshawe (IMA Grads) and Western Don Wright Faculty of Music (Grads/Faculty) contributed on nine (9) JUNO nominated projects

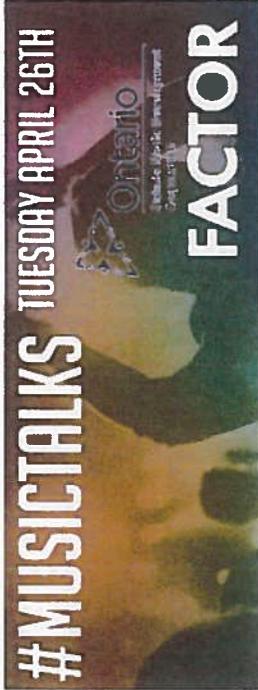

OIART was impacted with Seventeen (17) graduates working on Thirty-Two (32) JUNO nominated projects. Some of the 2016 JUNO award winning projects London Grads contributed to include The Weekend (winner of 5 awards) Walk Off The Earth, Justin Bieber, and Death From Above 1979. Please also note the Producer of the Year Award is named after London's own Jack Richardson! Congrats and keep up the amazing work!!!

This summer London streets, parks and buildings will be alive with art! London Arts Council and The City of London Music Office will present a professional artists live performance program throughout June to September. London Arts Live offers Londoners new opportunities to engage in, and experience the arts while providing professional artists new venues and audiences. Best of all artists are compensated for their work! Learn more at www.londonarts.ca/arts-live

April 15 - 17th
 London's own Jack Richardson left an incredible impression not only on the Forest City, but on the Nations Music Industry. Annually, the London community gathers together celebrating the best London has to offer from the music industry. This year's edition of the Jack's featured several new components including a Hall of Fame Country Showcase, Jack's Salute of the High School Bands, Sound Check for Success Education Day (presented by OIART & the London Music Office), and the Hall of Fame Rock Show. The weekend wouldn't be complete without the Awards Gala closing things out Sunday, April 17th. Come experience a full weekend of the Jack's For All details visit www.londonarts.ca

Tuesday April 26th
 The #MusicTalks dialogue continues with a focus on grants! Representatives from FACTOR and OMDC will be in London to discuss the changes to their granting programs. This is an excellent chance to learn about the new opportunities within the FACTOR program as well as gain an understanding of how the OMDC Ontario Music Fund granting process works. This is highly recommended for anyone involved in the music industry that is looking to accelerate their career!
