Chair and Members  
Planning and Environment Committee

Re: Industrial Operations Shaver-Brockley Area

Recently, dozens of members of the public living in the Shaver-Brockley area in south London, have expressed growing concerns and frustration regarding the odour being produced and emanated by the industries operating in the area. We attended a community meeting November 10, 2016 where residents expressed their concerns. We believe the Municipal Council should be provided with an update from the Civic Administration regarding this matter.

The residents of this community have longstanding issues with respect to the negative impacts these facilities are having on the surrounding area. We respectfully ask that the following motion be supported:

“The Civic Administration BE DIRECTED to report back to a future meeting of the Planning and Environment Committee with an update with respect to what measures have been and could be undertaken to address the negative impacts that the industrial uses in the area are having on the Shaver-Brockley community and surrounding area and what the City of London can do to mitigate the impacts.”

Respectfully submitted,

Matt Brown  
Mayor

Harold Usher  
Councillor Ward 12
