Re: Rapid Transit Corridor – Traffic Flow

With the implementation of the rapid transit corridors in the downtown area, it is imperative that the flow of traffic be maintained along those corridors and as such, I am requesting that the following recommendation be supported:

“The Civic Administration BE DIRECTED to report back on the feasibility of implementing specific pick-up and drop-off times for services, such as deliveries and curbside pick-up of recycling and waste collection to local businesses in the downtown area and in particular, along the proposed rapid transit corridors.”

It being noted that this does not include moving trucks or deliveries to private residences in the proposed areas.

Respectfully submitted,
