

Organization: Urban League of London

Representatives:

Wes Kinghorn, President of Urban League of London

Nicole St. John, Lead Organiser 100In1Day London

Program: 100In1Day London

100In1Day is a global festival of civic engagement which encourages hundreds of one-day community-based events in cities around the world.

On Saturday June 3, Londoners will come together to create 100 events of all sizes to celebrate their city in 1 day: pop-up art installations, micro parks, community gardens, street concerts, neighbourhood bike rides and thousands of other creative ideas. Some events will last only an hour or the day, while others will foster lasting change.

Whether they dream big or small, 100In1Day participants will be joining a global phenomenon that originated in Bogota, Colombia and rapidly spread to Milan, Rio de Janeiro, Capetown and beyond – reaching 28 cities across four continents. In Canada, 100In1Day is powered by Evergreen with events in Toronto, Vancouver, Edmonton, Hamilton, Montreal, Halifax, and now – London.

In London, the Urban League has drawn inspiration for this event from the London Plan, a comprehensive plan that emerged with the input of thousands of Londoners. Events will celebrate neighbourhoods, cultural diversity, natural spaces, and much more.

We would like the opportunity to share this program with the Community and Protective Services Committee in hopes that it will be shared with Council and they will be inspired to participate and encourage residents in their Ward to join in.

Best,

Nicole St. John
