

Dear Paul Hubert :

This letter is regarding to upcoming road work project on our street in the near future. We are very concerned as we heard that there is a possibility of having also a sidewalk included in the curb and sewer project.

WHY ?? This is a huge wasting of our taxpayer's money and City's irresponsible and unnecessary spending. We are living on the North Mile Rd. for over 40 yrs. now. Love it , enjoying our walks and tranquil surroundings. Never ever we felt there is a need for a sidewalk. Around us there are many street with new curbs already and they don't have a sidewalks either Who wants this ? Everybody who we talk to is against it. This is a quiet neighborhood with no bus route. Also in the winter sidewalks would be more of a nuisance than a practicality.

Please , consider our voice in this matter as a long time residents in this upcoming decision for the City's council. Again **WE DON'T WANT AND NEED A SIDEWALK ON OUR STREET !!** We believe we have the right to voice our opinion instead of having to have pushed something on us without a valid reason for it .

Thank You .

Walter and Viera Malaschitz
765 North Mile Rd.
