Subject: Requesting Delegation Status

Good evening Heather,

Pursuant to Section 36 of the Council Procedure By-law, I would kindly like to request delegation status at the next Planning and Environment Committee meeting on February 6.

I would like delegation status to support the removal of the holding provision H8713. I will be one of the parties building a residence on the land and have been planning for this construction since the summer of 2016. Due to complex scheduling for the build of a residence and our desire to move in in the near future, I would like to proceed as soon as possible.

I also grant the PEC permission to place the communication on the Agenda.

Please let me know at your earliest convenience the time and location of the meeting.

Sincerely,
Tarik Kasem
6730 Navin Cres, London, ON
