Notes from our Subcommittee meeting Feb 7 2017

Attended by Dave Mitchell and Henk Ketelaars

Home Show:

We found that participation in the home show was a positive experience.

According to Diane, we spoke to 313 people which is ok. More toured through but were just looking of course.

The wheel was a great idea and we ended up giving most of our lights and bell away.

We are looking forward to more of these experiences.

Lights Give-Away and Bike registration.

Do we want to plan a bigger Lights Give-Away project?

What if we found some money (grant) and crated a cooperative project with London Police, City of London and the CAC.

This would make a ideal Spring project.

Promotion / Cycling Education.

Since there will be many more festivals and Expo's, could we acquire a tent.

We know that cycling Education is at the forefront of our Province. Shall we get ready for it?

Share The Road Submission.

The City has applied for with Share The Road for a updated Silver Status.

Jay Stanford told be that we will be awarded a Bronze again.

The Share The Road conference is April 11, and this project will get in the news.

What can we do to show our pride and celebrate this accomplishment, in the name of a Thank You for all that has improved over the past 5 years.

Discussion about providing electric outlets on the TVP.

Park's is discouraging electric bikes on the TVP. My bike produces it own power by peddling. And the battery simply helps in startups only. No need to charge, but once every 2 or 3 months.

Electric scooters would be a pedestrian issue, and not part of CAC.

Workplan.

See attached PDF.

These recommendation's are from: "Final Executive Summery Report", LondonBikes.

Are any of these items worth considering making them part of our upcoming Workplan for 2017.

Can we prioritize them?
