**Subject:** re SOHO reconstruction Phase II

I would just like to say that I am in favour of the improvements set to begin on Horton Street east of Wellington St. The use of median planters and wider sidewalks would not only beautify the area but allow for greater pedestrian use. The SOHO neighbourhood would become a more attractive entry into the downtown area. I have attended city meetings on these improvement and highly recommend that the city follow through on all the improvements.

Yours Sincerely  
Ellen Innes
