

Sanctuary City discussion

DIIAC, March 16, 2017

Questions for Discussion

1. Are you in favour of London becoming a sanctuary city?
2. What does “sanctuary city” mean to you? Should the terminology be changed? Would you prefer an amended resolution?
3. Assuming response from DIIAC members is positive: What should the scope of services provided entail? Should it go beyond municipally provided services to ABCs? Should there be an advocacy component with the province or federal government?
4. Who should take on the role of educating the public?
5. Are there other issues that DIIAC members would like to raise?
