

PART 2: Streetscape Character

Step 1: In person or on Google Streetview, go property by property checking off the most fitting characteristic for each of the categories below. Check off only one characteristic per property for A, B and C.

Step 2: Tally up the total number of properties that fit into each characteristic. Write the sum under the TOTAL column.

A. Front Yard Condition

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	TOTAL
A.1 Landscape across entire property																		
A.2 Landscape across entire building																		
A.3 Landscape across portion of building																		

B. Building Height

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	TOTAL
B.1 1 storey																		
B.2 1.5 storeys																		
B.3 2 storeys																		
B.4 2+ storeys																		

C. First Floor Elevation

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	TOTAL
C.1 0 to 2 steps above grade																		
C.2 3 to 5 steps above grade																		
C.3 6 or more steps above grade																		

PART 3: Compatibility

Step 1: Write the most frequent characteristic for each category from the Streetscape Character tables on the previous pages (eg. A.3).

Step 2: Identify whether you intend to incorporate that dominant characteristic into your design by circling YES or NO.

Step 3: Where the answer is NO, provide your reasoning and justification.

RESULT FROM A:

Are you incorporating this category into your design? **YES/NO**

If No, please provide justification:

RESULT FROM D:

Are you incorporating this category into your design? **YES/NO**

If No, please provide justification:

RESULT FROM B:

Are you incorporating this category into your design? **YES/NO**

If No, please provide justification:

RESULT FROM E:

Are you incorporating this category into your design? **YES/NO**

If No, please provide justification:

RESULT FROM C:

Are you incorporating this category into your design? **YES/NO**

If No, please provide justification:

RESULT FROM F:

Are you incorporating this category into your design? **YES/NO**

If No, please provide justification:
