

**To whom it may concern:**

RE: a request for delegation status at a possible PPM to be held at the April 25th meeting of the CPSC.

At the last meeting of the Animal Welfare Advisory Committee it was shared by staff that the civic administration plans to submit their recommendation regarding licensing of stores that sell animals at the April 25th meeting of CPSC.

If staff does submit their recommendation on this matter of a bylaw change regarding retail sale of various species of animals kept as pets, resulting in a PPM being held on that date, please provide me delegation status for that date.

I will be speaking on behalf of a local, grassroots advocacy group that I lead, called FOCA - Friends of Captive Animals.

Best regards,
