Hello,

I understand this proposal will be on the PEC Agenda on May 8, 2017.

Please add me to the list of presenters. I would like to display a scale model of the block surrounding this proposal as well as make a verbal presentation.

I would also like to know if there are facilities to show an apple version powerpoint presentation. This would take about 8 minutes and like the scale model will really show the size of this proposal.

Thank you for your assistance.
