

PUBLIC PARTICIPATION MEETING COMMENTS

5. PUBLIC PARTICIPATION MEETING - Growth Management Implementation Strategy (GMIS): 2018 Annual Review & Update
 - Lois Langdon, London Home Builders Association – providing the attached comments.
 - Bill Veitch, London Development Institute – indicating that London has a very big opportunity with the market coming our way and it is uncertain if that opportunity will be short-lived or more prolonged; noting we need to be ready to address the opportunity with a fairly quick process, although we may not be completely ready to catch the current wave; advising that the staff initiatives are supported and that the industry is hoping for a streamlined process and that staff will keep an eye out with respect to what is happening with the various capital projects; and extending thanks to staff as they have shown everyone there are concerns and we have to stay on top of that.
