Mayor and Members of Council

**Re: Denial of Request for Delegation – Traffic Safety Concerns – Blackacres
Boulevard and Yew Tree Garden Area**

We are very concerned that a request for delegation before the Civic Works Committee to address the above-noted matter has been denied by the Committee. I respectfully request that Council direct the Civic Works Committee to permit the delegation at their May 14, 2012 meeting.

As noted in our letter to the Committee, the neighbourhood has been requesting, for a number of years, that the City of London address the traffic safety issues in our neighbourhood. Specifically, we have requested that a stop sign or some other remedy be provided in our neighbourhood to address these concerns. The response from City staff has been less than satisfactory, leaving us with no other option then to seek delegation status before the Civic Works Committee to ask that staff be required to address the concerns of the neighbourhood.

Thank you for your consideration of this request.

Sincerely,

Steven Craig
281 Blackacres Boulevard
London, Ontario
