RESERVOIR HILL

Part # 1; Intro

Hello, my name is Brianna Barnes, I am 11 years old, and I would like to tell my part of the fight against the development on Reservoir Hill. And as we all know (or should know) that this debate has been going on for 15 years and has gotten out of control! I have started a petition [No mommy, I'm not mentioning the other petitions!] any way, I have started a petition to STOP the development on Reservoir Hill, make ALL of city council understand why that building an apartment building on that specific hill is a bad idea, have the town of Byron realize the damage it will cost, try to save our name of "Forest City", and to have my mind cleared of all the anger I hold against the person that brought up the idea of development. And don't forget all the animals that will die painfully because of those who thought it would be a good thing to have an extra apartment building.

PART #2

REASONS WHY DEVELOPMENT WOULD BE A BAD THING

1st reason why is that the citizens who live on the Hill told me that they absolutely did not want that apartment there.

2nd reason is about the animals. Over 300 animals will die just for something we don't need. And in case you were wondering, here is the long list of animals that will die; the deer, the bunny rabbits, the hedge hogs, the ground hogs, the chipmunks, the squirrels, the ants, the bees, the hornets, the wasps, the potato bugs, the beetles, the birds, birds of prey, the frogs, the toads, the snakes, the bats, the mice, the skunks, the racoons, the butterfly's, the moths, the dragon fly's, the crickets, the grasshoppers, the stick bugs, the stink bugs, the mosquitoes, the spiders, the praying mantis and more that I don't know the names of.

3rd reason is that people would lose their favourite outdoor activities like washing and waxing their car, picnicking, games like soccer or kite flying, walking their dog, hiking, taking a stroll and more.

4th reason is that half of the apartments in London are already empty. Why do we need another one?

That is our only place that looks like the way God built it. Not like places that we have already destroyed by our bulldozers, cranes, cement mixers and other construction tools I don't know what they're called.

I HAVE THIS SAYING AND IT'S THAT IF YOU CAN REPLACE THE WORD CONSTRUCTION WITH THE WORD DESTRUCTION IN THE SENTENCE IT MEANS THAT IT'S THE WRONG THING TO DO!

PLEASE THINK BEFORE YOU DESTROY OUR BEAUTIFUL CITY!
