Dear Mayor and Councillors:

Re: 560 & 562 Wellington St – Application for Official Plan and Zoning By-law Amendment – File OZ-8462

I am writing in support of the above-noted application to bring a signature building to a prominent location within Central London and to provide benefits to local businesses and the core.

This proposal will bring compact intensification of lands within Central London and add to the vibrancy of living in the core.

I am pleased to support this proposal that is adjacent to Victoria Park and will facilitate a prosperous Downtown London.

The benefits of this proposal are many and I do not believe there is any negative impact on the community for this proposal.

Looking forward to seeing this proposal approved. Thank-you for your time.

Sincerely;

*Jeff Petrie and April Crake
