

Hi Jerri-Joanne,

I recently found out I was accepted to medical school in Sudbury, While I am excited for this opportunity, I will have to resign from my position as the post-secondary student representative on the ACCAC. I really enjoyed my time on the ACCAC and I learned a lot about accessibility needs within London and Ontario. I hope to use this experience in my medical career and continue to advocate for an accessible Ontario.

Please extend my thanks to the committee for welcoming to their meetings and sharing their experiences. Please also extend my regrets that I am unable to continue my term.

Let me know if there are any additional steps I must take. Furthermore, I will encourage appropriate students I know to apply for the role.

All the best,

Kathleen Walsh
Western University
