

Hello members of PEC,

I am emailing today to let you know I am in full support of allowing patios to have music and dancing. I would spend more of my time at these businesses in the summer if they offered music and dancing on patios, which is better for business, tourism and general cool-ness of a city.

I also like the following suggested recommendations around the dancing and music on patios:

1. To remove the prohibition against amplified music, dancing and other forms of entertainment on patios from the *zoning bylaw*.

Let's make London even cooler than it already is. Say yes to music and dancing on patios.

Thank you,
This email can be part of the public record.
