

Bostwick Road Municipal Class Environmental Assessment Study

Notice of Public Information Centre #2

The City of London is undertaking a Municipal Class Environmental Assessment (EA) Study to develop traffic capacity, accessibility, and geometric improvements to Bostwick Road from Southdale Road to the intersection at Wharncliffe Road South in order to accommodate planned residential, commercial, and institutional development along the corridor.

The study will also include identifying a preferred alignment for the Bradley Avenue Extension subsequent to the recommendations of the City's *Smart Moves Transportation Master Plan* (TMP) and *Southwest Area Plan* (SWAP).

The study is being undertaken in accordance with the requirements of a Schedule 'C' project as outlined in the Municipal Engineers Association's *Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

As significant public, stakeholder, and review agency consultation is a key element of the EA process, a second Public Information Centre (PIC) is being held to present and obtain information on:

- The Alternative Design Concepts;
- The Evaluation of the Design Concepts; and
- The Recommended Design and proposed mitigation measures.

The Public Information Centre is scheduled for:

Date: Wednesday, June 14, 2017

Time: 4:30pm to 6:30pm, Open House format

Location: Lambeth Community Centre, 7112 Beattie Street

Following the PIC, comments will be reviewed and a Preferred Design will be selected. An Environmental Study Report will be prepared and placed on the public record for a 30-day review period. The PIC display boards will be available for review following the June 14, 2017 PIC.

All those with an interest in the study are encouraged to attend the PIC. If you have any questions or would like to be added to the study mailing list, please contact the following or visit <http://www.london.ca/residents/Environment/EAs/Pages/Bostwick-Road.aspx>:
