

# LACH Stewardship Sub-Committee

## Report

Wednesday June 28, 2017

Location, 25 Elmwood Ave, east

Time 6:30 to 8:00

Present: J. Cushing (chair), M. Whalley, A. Beaton, B. Vazquez, T. Regnier, J. Hunten

### Agenda Items:

- **East London Industrial Heritage Review.** This report, now about 2 years old, was review to ascertain which properties to recommend for Listing. Of the 19 properties in this report, 3 are already listed and 1 is designated.

Recommendation: The remaining 15 properties be listed and the staff be requested to provide Digital copies of any photos of the Florence/Rectory intersection that may be in the archived files that show buildings around that intersection prior to and during the alignment with York St, C. 1960 (Re Bennett building). Moved: B. Vazquez; seconded: M. Whalley. Passed.

- **150 Dundas St.** Discussed the merits of the revised plans. Comments – Building is far too tall, not in keeping with the intent of the HCD and the street level is not pedestrian friendly.

Recommendation: That LACH further review this proposal. Moved: M. Whalley; seconded T. Regnier. Passed.

- **660 Sunningdale Rd. (Red Clay Barns):** After reviewing Nancy Tausky's reports the Committee supports designating this property.

Recommendation: That 660 Sunningdale Rd be designated. Moved: J. Hunten; seconded: A. Beaton. Passed.
