

Hi there,

I'm wanting to add this letter to the proposal on development complaints.

I was awakened to Justin Beiber music playing at very high volume then followed by the workers shouting over the music then to the hammers and staple guns. I'm not sure they realize this is a full residential area behind the new homes they are building. My husband works late so needs to sleep in and we just feel like music should not be blaring by the workers until at least 9 am. We've complained unfortunately a few times just due to the noise vulgar language and unprofessionalism of the site workers. I'm a mother of two young children who can't even play in their own backyard as I do t need them hearing the swearing and the music they choose to play as well at times.

Thanks

The DiCarlos
