NOTICE OF APPLICATION TO AMEND THE ZONING BY-LAW

The Municipal Council for the City of London is considering an amendment to the City's Zoning By-law for the lands shown on the attached map. The requested change is described below. We are advising you of this application to invite your comments.

APPLICANT:

London Language Institute

LOCATION:

653 Talbot Street - see attached map

PURPOSE AND EFFECT:

The purpose and effect of the requested Zoning By-law amendment is to permit an office conversion of the existing dwelling for a private school and day care.

POSSIBLE AMENDMENT:

Change Zoning By-law Z.-1 from a Residential R3/Office Conversion (R3-2/OC2) Zone which permits a range of residential and office uses within the existing building to a Residential R3/Office Conversion Special Provision (R3-2/OC4(_)) Zone which permits a range of residential and office uses within the existing building. A special provision is requested to permit the additional uses of private school and day care within the existing building and allow for a reduction in parking from 18 spaces required to 8 spaces provided.

PLANNING POLICIES:

Any change to the Zoning By-law must conform to the policies of the Official Plan, London's long-range planning document. These lands are currently designated as Multi-Family, High Density Residential in the Official Plan, which primarily permits low and high rise apartment buildings, multiple-attached dwellings, nursing homes and rest homes. Some secondary permitted uses which are considered to be integral to and compatible with high density residential development such as office conversions and small-scale community facilities may also be contemplated.

The subject lands are within the Neighbourhood Place Type and within the High Density Residential Overlay and located along a Neighbourhood Connector in the London Plan (Ministry approved but not in force and effect). The London Plan has similar direction for these lands including carrying forward the Talbot Mixed Use Area policies which contemplate some adaptive reuse of existing dwellings.
