ReThink London is about

It is a community conversation to create the plan that will shape London's future. Together, we'll set the vision for the future and create the roadmap to get us there.

SUCH AS

Strengthening Neighbourhoods

– that is “How we **LIVE**”

Growth Management Implementation Strategy

- That is “How we **GROW**”

The Urban Forestry Strategy

– that is “How we **GREEN**”

The Transportation Master Plan

– that is “How we **MOVE**”

The Investment and Economic Prosperity Plan

– that is “How we **PROSPER**”

What is Call to Action...

- We are asking for all Londoners to get involved,
- We need your opinions, your thoughts and your ideas to set our vision for the future,
- Get your neighbour, your co-working, your friends and your family involved – we need you to help us get the entire City involved in this important conversation about our common future,
- We can all be the architects of our City and our future – everyone has something valuable to offer,
- A year long review with emphasis on engaging the public,
- Define what is important to you (you being Londoners) (based on how we....live, move, green, grow, prosper)
- Define how you (Londoners) see London in the future (based on how we....live, move, green, grow, prosper)

How Get Involved...

ReThink London is about getting Londoners involved on their own terms and in ways that are comfortable for them

- For example, you can participate from home, your workplace or the coffee shop using electronic and social media technologies (twitter, facebook, on-line through website)

- Or, you can participate in more traditional ways (write in, phone in, attend workshops, symposiums, festivals, and other city events,)
- We've created a variety of tools to help you get involved in the way that suits you and your lifestyle

Why Getting Involved is important...

- We are now part of a global stage and we need to think about how we can shape London to compete in that new reality
- We cant use the same principles our grandparents and parents used to create a successful London – we need to think of new ways to make London prosperous in the future
- We need to think big about our vision for London – what do we want London to offer to our children and their children? Then, we need to develop a plan for how we get there, together.
- This is about creating the London that we all want to live in – now and in the future.
- We need to grapple with transportation, housing, culture and lifestyle choices that no longer resemble your parents'
- To continue to make London a dynamic City,
- Develop a plan that makes Londoners feel proud, and
- With the way the world is changing and competitive, we need to plan in ways that would attract new people to London as a place they would want to live
