Re: **Invitation to the London Police Services Board to Utilize City of London Meeting Supports**

I would like to respectfully request that the Municipal Council extend an invitation to the London Police Services Board to hold their meetings in the Council Chambers at London City Hall. This would provide a couple of benefits to the public including:

1. the ability to live stream the meetings on Youtube, which will enhance public engagement and transparency; and
2. a venue which some members of the public may find more inviting, and one which could accommodate more members of the public, should they wish to attend the meeting.

There may be some minor costs associated with technical support, but for the most part the move to the Council Chambers should be cost neutral. Room bookings and access could be arranged in consultation with the City Clerk.

Your consideration of this request would be greatly appreciated.

Sincerely,

Mo Salih
Councillor, Ward 3
