Subject: LCA Supports the Planning and Design Standards for Trails in Environmentally Significant Areas

Lambeth Community Association wishes to add its voice of support to The Planning and Design Standards for Trails in Environmentally Significant Areas. Public Parks and ESA's are two distinct categories of public property, with different uses and different needs for preservation. Each has its own role to play in the development of London as a city that meets the needs of its citizens.

If it is not too late, I request the inclusion of this statement of support, to the City Council agenda.

Regards,

Geoffrey Faul
President, Lambeth Community Association
