The Corporation of the City of London
City Hall
300 Dufferin Avenue
London, ON N6A

Attention: **Chair and Members
Built and Natural Environment Committee**

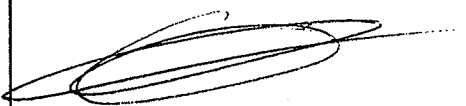

Dear Sir/Madam:

Re: **Copp Limited**
13-15 York Street, London

We are retained by Copp Limited and other companies with respect to lands located south of York Street and east of Thames Street.

Our clients are opposed to the recommendation of the Director, Land Use Planning and City Planner, that the demolition permit be denied. Our client also challenges some content in the Staff's draft Statement of Significance which has been placed before the Committee. It does agree with the statement by Staff that "Council may also recommend deferral of the request to designate the property until a future date". This will permit Copp Limited to carefully consider matters related to redevelopment of the lands in question in consultation with the City.

Yours truly
PATTON CORMIER & ASSOCIATES
