To the Corporation of the City of London

As specifically agreed, we have performed the following specified auditing procedures set forth in the accompanying schedule in connection with the Code of Practice related to the London Downtown Closed Circuit Television Program for the year ending December 31, 2014.

Our engagement was performed in accordance with the Canadian generally accepted standards for specified auditing procedures engagements.

We make no representation regarding the appropriateness and sufficiency of the specified auditing procedures. These specified auditing procedures do not constitute an audit or review and therefore we are unable to and do not provide any assurance on the financial information and related data assessed. Had we performed additional procedures, an audit or a review, other matters might have come to light that would have been reported. The attached findings relate only to the elements, accounts, items or financial information in the specified procedures and do not extend to any of The Corporation of the City of London's financial statements taken as a whole.

SCHEDULE

SPECIFIED AUDITING PROCEDURES AND FINDINGS

- 1 Obtain and read the “Code of Practice” dated December 13, 2004, related to the London Downtown Closed Circuit Television Program.

We have obtained and read the Code of Practice dated December 13, 2004.

- 2 Ensure that adequate camera monitoring staff are present at the time the specified audit procedures are being performed.

At least one camera monitoring staff was present each time that we entered the security office while the specified audit procedures were being performed, as required by the Code of Practice.

- 3 On a monthly basis, select a sample of four recordings, each for a 15 minute period, from 17 cameras located in the City of London downtown core. Review the recordings for compliance with Section 12 of the Code of Practice for camera use and ensure the recordings have not monitored individuals in any manner that would constitute a violation of the Code of Practice.

KPMG has selected four recordings from each month of the year with the exception of May, 2014 during which no sample was chosen. We have instead selected 4 additional recordings from the month of June, 2014 (8 in total), bringing the total sample selected to 48 recordings.

We have reviewed 46 recordings for the period from January 1, 2014 to December 31, 2014. We are unable to access two fifteen-minute segments from the discs provided. The first inaccessible segment is a recording from Camera 16 on February 25, 2014 running from 15:25 to 15:40; the second segment is from a recording from Camera 10 on July 29 running from 20:25 to 20:40.

Additionally, we have noted seven instances in the reviewed recordings where segments of data are missing. These instances are listed below:

INSTANCE	DAY	MONTH	DATE	YEAR	CITY OF LONDON RECORD NUMBER	CAMERA	MISSING SEGMENT
1	Friday	January	31	2014	13-017	2	10:01:23-10:02:03
