

Idea Name: Past Future Forks**Organization:** Museum London**Description:** This project is about bringing together three premier institutions of the city to make more accessible and more valuable what our city cares deeply about: culture, heritage, and family - and creating a new institution that can serve as a proven leader in culture as we continue the work of revitalizing of our city's downtown core and the Forks of the Thames.**Status:** We have been working on the conceptual plan for this project for more than a year now and have created conceptual architectural drawings to illustrate the direction we would imagine it going.**Partners:**

The principle partners would be Museum London and the Children's Museum but once built the facility would involve many community partners in the delivery of programs at the site and at the Forks.

From a funding standpoint the partners would be government at all levels as well as corporate, foundation and individual donors.
