Subject: Community Services Committee Meeting June 19
Date: Friday, June 08, 2012 2:57:17 PM

Brenda Westlake,

The Fanshawe Student Union would like to request delegation status for the upcoming CSC Meeting on June 9th in regards the topic of Amplified Sound and Hours of Operation of Special Events.

The FSU would strongly support Option B of the allowable sound/decibel level at special events which would increase decibel levels to no exceed a sound pressure of 100 decibels beyond 30m from the front edge of the stage and 5 peak/crescendos.

We would also ask that this committee support extending the hours of operations of special events past the current end time of 11:00 pm. Our members (students at Fanshawe College) have a totally different time clock in attending special events. Normally young people do not begin to go out until well after 9 pm, the majority arriving at outdoor festivals closer to 10:00 pm, festival programmers constantly have this problem appealing to this demographic. By the time students get settled at the festival or special event it is finishing and they would be prepared to stay for a few more hours. We also respect the citizens that live in the area of some festivals so we would support Option B as outlined by the staff in their report to the committee of changing the hours to have special events close at Midnight instead of 11 pm.

Sincerely

John b. Young

Operations Manager
