Subject: Delegation Status Request

To: Planning and Environment Committee

Dear Committee Members,

Re: Application by Harasym Homes Inc. (ref: H-8854) - Removal of Holding Provision h-37 (Provincial Minimum Distance Separation)

Municipal Address: 1900 Kilgorman Way; Lot 9 RP No 33M-682

Please accept this as my request for delegation status in regard to the above-noted Application. It's my understanding that the Planning and Environment Committee will be hearing the Application on Tuesday, February 20, 2018 and will subsequently make its recommendation to Council. I am requesting an opportunity to make a presentation to Committee.

As the owner of the agricultural property and livestock facilities which trigger the above h-37 provision and whose property is also directly affected by the potential removal of such provision, it is my intention to make submissions to Committee as to the reasons why this Application is premature and why the holding provision should not be removed.

Thanking you in advance.

Respectfully,

Mohamed Moussa
