Subject: [467-469 Dufferin Ave.](#)

I, Damian Byrne, totally support the immediate demolition of this property. This structure although built in a heritage district has no architectural value. It is an embarrassment to the neighborhood and tends to lower the value of other homes in the area. We should support the preservation of structures that have significant heritage value but we should also allow the demolition of structures that have little or no significance and encourage entrepreneurs to revitalize our neighborhood by building new structures that are modern but blend into the fabric of Woodfield.

Sincerely, Damian Byrne.
