The 2012 Arterial Road Rehabilitation – Contract B includes the road segments listed below. They will be undergoing road reconstruction, asphalt mat replacement or mill & pave operations using funding from the approved 2012 Arterial Road Rehabilitation budget. In addition, some of the existing Traffic Signal infrastructure on Wellington Street will be upgraded with funding being provided from the Traffic Signal Maintenance budget (TS4067 & TS5123).

- | | |
|-----------------------------|--|
| A. Wellington Street | Pall Mall Street to York Street |
| B. Wonderland Road South(1) | HWY 402 to Westminster Drive |
| C. Wonderland Road South(2) | Exeter Road to Bridge over Dingman Creek |

An essential part of the project will be communication with residents and businesses along each road segment regarding schedule, duration and expected impacts, and to introduce key project members from the contractor and the City. This will be done once a detailed schedule is received from the contractor. In general, impacts on the community and through traffic will be short lived, but significant.
