

To the Chair and Members of the Community and Protective Services Committee:

I'm hoping to bring awareness to the council about the lack of accessibility and programs in the City of London. I'm asking for them to participate in a day in a chair whether it be manual or mortar, Just for a day through our eyes is all I'm asking.

I would like to request delegation status at a future meeting in order to explain my idea.

I give permission for this to be placed on the agenda and City of London website.

Thanks

Alicia McGaw
